## Launch of HMM's Electronic Bill of Lading Service with CargoX

Dear Valued Customers,

We are excited to announce the launch of HMM's new Electronic Bill of Lading (eBL) service in collaboration with CargoX, effective from July 8, 2024. This innovative service aims to enhance the efficiency, security, and convenience of your shipping documentation process.

### Key Benefits of the HMM-CargoX eBL Service:

- 1. Enhanced Security:** The eBL service utilizes blockchain technology, ensuring the highest level of security and preventing unauthorized alterations.
- 2. Faster Processing:** Electronic documentation significantly reduces the time required for processing, leading to quicker cargo release and reduced demurrage charges.
- 3. Cost Efficiency:** By eliminating the need for physical paper documents, the eBL service reduces administrative costs and courier expenses.
- 4. Environmental Sustainability:** Our move towards digitalization supports environmental sustainability by reducing paper consumption.

## How to Use the HMM-CargoX eBL Service:

- 1. Registration:** Customers need to register with CargoX to access the eBL platform. Detailed instructions and support will be provided to assist you in the registration process.
- 2. Issuance and Transfer:** Once registered, you can request the issuance of eBLs through the CargoX platform. The transfer of eBLs can be easily managed online, ensuring seamless and traceable documentation.
- 3. Support and Training:** HMM and CargoX will offer comprehensive support and training to ensure a smooth transition to the eBL system. Our dedicated team will be available to answer any queries and provide help as needed.

We strongly encourage you to take advantage of this cutting-edge service, designed to streamline your shipping operations and provide a superior customer experience.
