

**Certificate of Non-Manipulation:**

Pursuant to the provisions of the Arab Rules of Origin and relevant international preferential trade agreements, and upon the request of the concerned party, the Egyptian Customs Authority certifies that the goods described in this certificate entered the territory of the Arab Republic of Egypt as transit cargo and complied with the following conditions throughout their transit period within Egypt:

1. The goods remained under continuous and direct customs supervision and control during their transit period.
2. The goods were not released for free circulation or cleared into the Egyptian domestic market.
3. The goods were not subjected to any manufacturing, processing, assembly, alteration, or transformation affecting their original condition during transit.
4. Operations performed on the goods were limited to unloading, loading, re-forwarding, temporary storage, ventilation, or other activities necessary to preserve the goods and maintain their condition.

**The certificate includes:**

Exporter's name.

Country of origin.

Certificate of origin number and date.

Transit port of entry in Egypt.

Date of entry and discharge.

Inward Bill of Lading / Air Waybill number.

Inward means of transport.

Transit port of exit from Egypt.

Date of re-forwarding and exit.

Outward Bill of Lading number.

Final country and port of destination.

Detailed description of goods.

Container and seal numbers.

Gross weight.

Number and type of packages.

Marks and numbers.

HS Code.

The certificate is issued based on available customs records and documents and certifies only the customs status, external condition of the shipment, and integrity of customs seals. The Egyptian Customs Authority assumes no responsibility regarding the internal contents, quality, specifications, or condition of the goods.
